* TIOGA™ Acquires assets of Metaltek's MACKSON INC Division

New Sign in Rock Hill, SC

Mackson is back, son

On March 3, 2017, the business assets of Mackson, Inc.- a Metaltek Company division based in Rock Hill, South Carolina were acquired by a Tioga™ family company.

Mackson Nuclear will continue to service its customers from its present sales and distribution facility in Rock Hill, SC. The Mackson Nuclear acquisition further expands the Tioga Group's North American footprint and increases the Group's product offering, competitive advantages, and top notch customer service capabilities.

Andrew Keiser, Mackson Nuclear's President, stated, "Mackson brings to Tioga an impeccable reputation for high quality and excellent service in the supply of fasteners, structural steel, fabrication services and critical components to the Nuclear Power industry. Mackson will further complement and expand Tioga's long history as the premiere supplier of piping, plate, structurals, and related products to a wide range of customers throughout the Nuclear marketplace."

Hill Muse, Mackson's General Manager, "We have never lost or wavered in our deep commitment to the Mackson customers and now with new ownership there is a renewed sense of energy. The future is bright"

Bill Kotcher, Tioga Pipe COO and Mackson Nuclear Board member said, "Adding Mackson Nuclear alongside Tioga Pipe's Nuclear operation will enhance what is already the best supply solution for the varied segments of the Nuclear industry."

Fact Quote

A **fastener** is a hardware device/mechanism that mechanically joins or affixes two or more objects together. It is not a singer who belts out a quick song (fast- tenor)

Feedback
